

PLASTIC RECYCLING SOLUTIONS

3 IN 1 DIE-FACE PELLETIZING PLANT

- Output: Up to 1000 kg/hr
- Save space
- Power saving
- No pre-crushing needed
- Suitable for Packaging film, PP Woven/Raffia, Plastic Regrind, washed film, flakes
- HDPE, LDPE, LLDPE, PP, BOPP

Major in Plastic Extruder Production and Design
GENIUS MACHINERY CO., LTD.

A. No.10-5, Tianzainei Ln., Sangang Rd., Longjing Dist., Taichung City 43444, Taiwan

T. 886-4-2630-1621 F. 886-4-2630-1716 E. service@geniusplas.com

PLASTIC RECYCLING SOLUTIONS

CACO3 COMPOUNDING PELLETIZING PLANT

- Suitable for PP, LDPE, PS; for adding in plastic product production for maximum CaCO₃ 80%.
- Output: Up to 1000 kg/hr
- High efficiency feeding device
- Ensure uniform dispersion of compounds, easy cleaning & simple operation and symbolizes techno economic success.

PLASTIC RECYCLING SOLUTIONS

SINGLE SCREW SQUEEZER

- Suitable for all kinds of washed plastic film, such as HDPE, LDPE, LLDPE, PP and etc.
- Moisture: 1%~3% after drying
- Output: 700-900kg/hr

Major in Plastic Extruder Production and Design

PLASTIC RECYCLING SOLUTIONS

UNDERWATER PELLETIZING PLANT FOR PROCESSING OF THERMOPLASTICS

- Simple operation & minimize labor.
- Long lives of the die plate and pelletizer knife due to specially developed wear-proof material alloys.
- Comprehensive safety devices provide safety protection for both operator and machine.
- Consistent pellet size. High throughput.
- Suitable for high viscosity material and soft material.
