

Recycling Made Simple

POLYSTAR
Repro-One

Gently Powerful
Shredder Integrated Pelletizing Technology
Raffia. Woven. FIBC.

POLYSTAR

One For All. All In One.

One step recycling technology for PP raffia & PE film

- Easy for operators
- One-step. Non-stop process

Directly Processes

- Raffia. Film. Lumps.
- Woven / Non-woven
- FIBC. Jumbo Bags
- Heavily printed Ad-star Bags

- NO need to pre-crush
- Large-sized, hard-to-crush waste
- Material of different shapes and sizes

Shredder Integrated

Double degassing

Able to process both printed and non-printed material

Two-channel filtration

Filter with dual channel system
For non-stop operation and reduces machine down time

Simple-to-use ie face pelletizing

Automatic pelletizing speed adjustment - Produces more uniform-sized pellets without labor intervention

Automatic blade pressure adjustment - Less machine down time, easier to change and adjust knives

Model Comparison

Model	*Output range (kg/hr)	Power consumption	Dimension		
			A (Length)	B (Height)	C (Width)
Repro One 65	80~110	55 kw	5800	4100	11300
Repro One 85	150~200	95 kw	5900	4100	12000
Repro One 100	200~300	138 kw	6000	4100	12700
Repro One 120	350~500	153 kw	6100	4100	13400

* Output based on clean, dry LDPE film processing, without degassing

Lower Your Material Cost !

- High % of recycled pellets back into your tape and film extrusion lines
- One-step, simple process
