

► HPR-34C

Fully Automatic Perforated Bag on Roll with Core Making Machine

※ Special design for making :

Star seal bag

vegetable bag

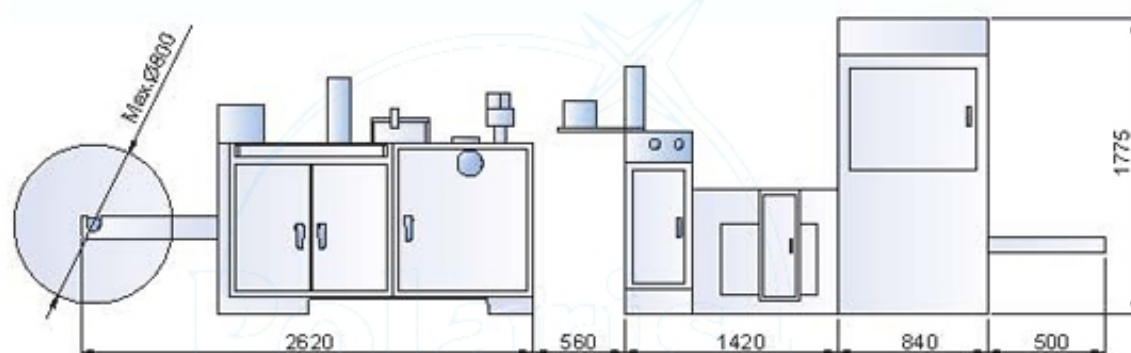

HYMAC

HONG YUENG MACHINERY CO., LTD.

亨運機械股份有限公司

Feature:

1. Equipped with Japanese made servo motor & driver system.
2. Tension-free design of film fed-out for better seal quality and less workload of servo motor.
3. Touch screen controller enables worker to set up the production speed and bag length from the "Auto rewinder".
4. "Edge Position Controller" (EPC) on the "Tension Unit" ensures uniform roll rewinding.
5. Self-developed and streamline machine control program ensure easy operation & maintenance.
6. "Auto rewinder" for 2-line production increases manpower efficiency and production output.
7. Pneumatic cylinder film lifting-up design for easy film roll loading.
8. Optional attachment to the machine :
 1. Photocells
 2. C-folding device
 3. Triangle folding device (center folding)

Specifications:

Model	HPR-34C
Max. film width	350mm X 2 lines
Max. finished bag width	300mm X 2 lines
Max. bag length	1,200mm
Max. dia. of bag roll	180mm
Film thickness	0.008~0.035mm
Production speed	100M X 2 lines
Electrical requirement	11kw
Pneumatic requirement	7 kg/cm ² , 500 L/min.
Machine dimension(LXWXH)	5940 X 2390 X 1775mm

⊙ Specifications subject to change without notice.

⊙ Production output depends on product specification, dimensions, type, thickness and quality of film, static charging, printing, bags quantity of each roll.
