Injection Series

射出成型系列

Vacuum Compression Series

真空热压成型系列

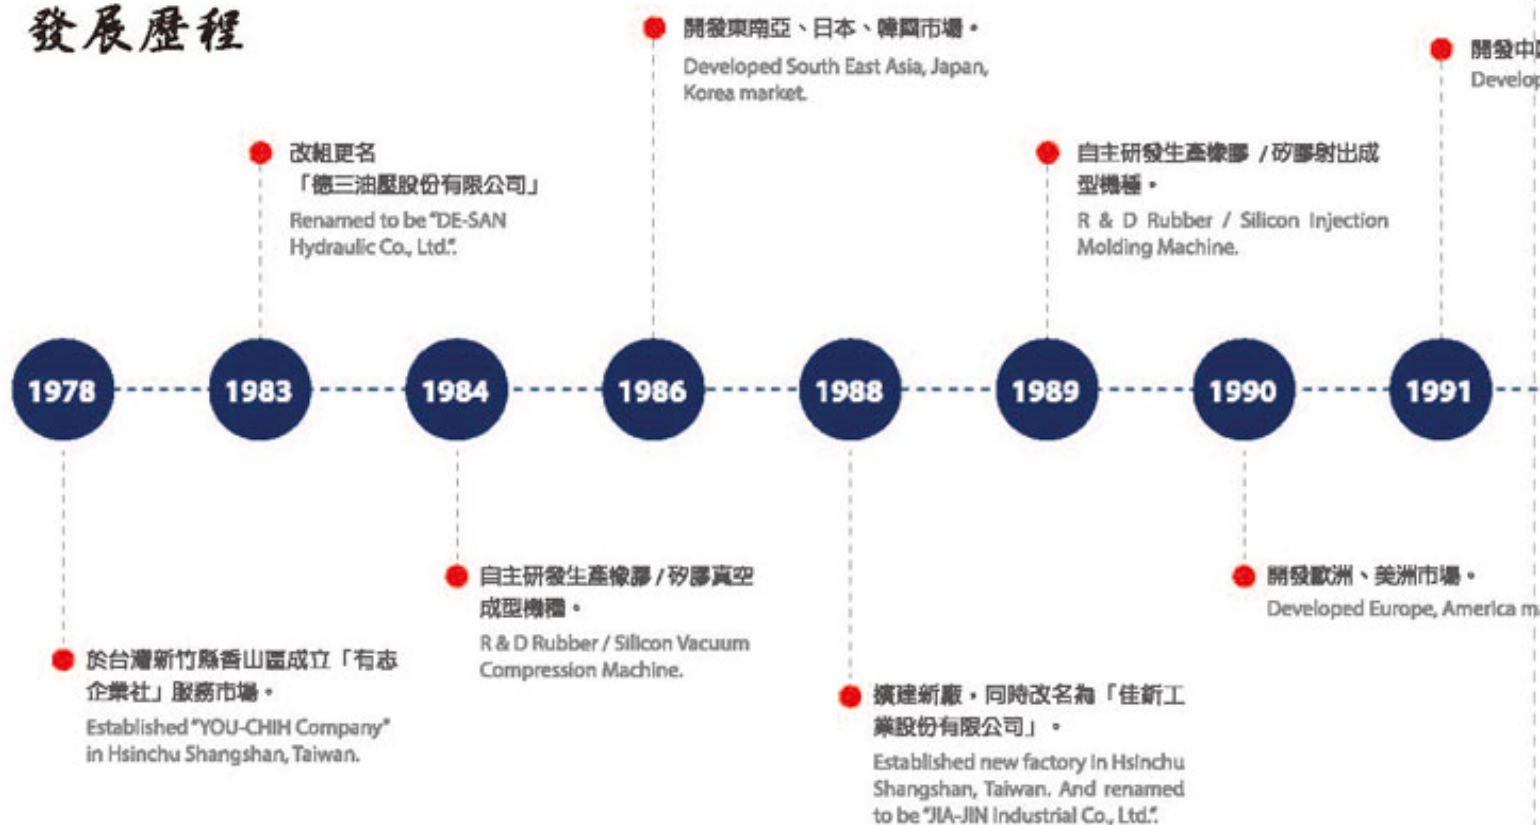

公司簡介

霖城科技股份有限公司 創立於1978年佔地20,000m²，團隊陣容堅強，共有：業務、工程、管理、生產、電機、品管、研發、維修等八大部門，更於1999年成立模具部門共九大部門。以生產橡膠矽膠加硫硫化成型設備為主，例如：橡膠射出成型機、真空熱壓成型機及各式熱壓成型機聞名，不僅在同業界來說是首屈一指，更讓客戶能從機台的購置與模具的設計開發一氣呵成，得到更完善及體貼的全方位服務。產品適用於電子零件、汽車零件、導電橡膠、工業油封、油圈、運動器材、醫療器材及各式器皿等等。

Lin Cheng Technologies Co., Ltd. was established in 1978 and the company now has expanded to a space of 20,000m². Our experienced team consists of multiple divisions including: Sales, Engineering, Management, Production, Electrical Engineering, Quality Control, Research and Development and Maintenance, and further, this year we have now expanded to include our 9th division, The Mold Division to better meet our customer needs. We stand out in this field through the manufacture of various rubber and silicone processing machinery, and vulcanization molding equipment. Some examples include: Rubber Injection molding machines, Silicone rubber injection machines, vacuum hot press injection molding machines and many more. The series of services that we can provide ranges from the purchase of machines to the design and development of molds. This allows us to provide full solutions for any prospective buyer allowing our customers to enjoy our caring, global services, achieving perfection together. Our products are used to produce many different items, including: electronic components, car parts, conductive rubber, oil seals for industrial usage, oil rings, sports equipment, medical devices, various utensils and more.

發展歷程

自有「模具、研發、生產」鐵三角

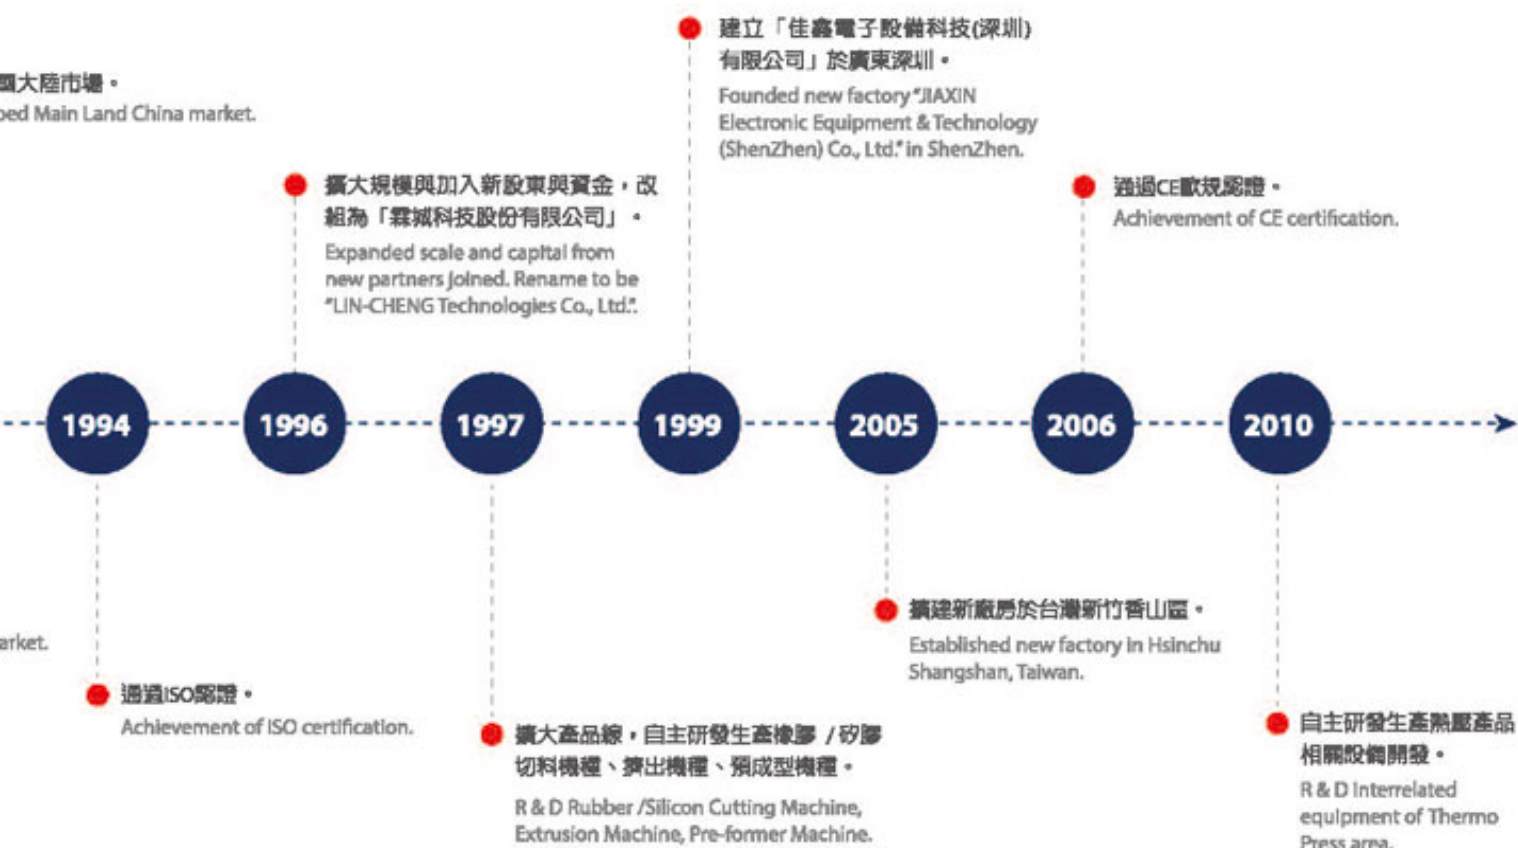

霖城自有模具部門，擁有真正設計不同規格及高複雜度模具及開發模具結構的能力，同時更能緊密結合自有設計研發團隊一起開發製模，直接採用自我的工程設計和模具變化，可在很短時間內完成您最新開發設計及迅速達成產品量產時程，協助客戶獲得市場先機。

Lin Cheng are able to provide a fully integrated, in-house service to meet the customized demands of each and every customer. Working to different specifications, we are able to produce highly complex molds. We work with the buyer, to research into new types of production methods, that are customized to the specific needs of that business. Because we have our own department working on this, they are able to complete each project in a very short period of time, helping your company to take advantage of the market opportunities while they are still there.

重視細節 成就完美

霖城熟悉機構性能與橡矽膠成型生產流程，明確客戶產品製程中的各種需求，具體提出機構單元最佳化的組裝配置建議，使機械發揮最大效益。霖城重視每個關鍵元件的完美結合，不斷的創新與突破，以高品質的機台贏得業界的口碑與滿足客戶的需求。

Lin Cheng has a long history of working with and understanding how the production and usage of machinery and equipment effects the performance in finished products made from rubber and silicone molding. We also know from the type of products that companies wish to produce, the type of machinery that is best suited for the process. Specifically, we are able to recommend optimal assembly and configurations for the machine and the process, so that your company can maximize your effectiveness. Lin Cheng attaches great importance to perfecting the right combination of each key component, this knowledge has been gained through a long process of continuous innovation and breakthroughs. This has won us a strong reputation throughout the industry, and when you work with Lin Cheng you can be sure that we will be able to meet your needs, with high quality machines.
