5. 中國無錫廠 China Wuxi Factory

利拿機械公司成立於西元1981年，為台灣第一家加壓利拿式密練機之製造廠商，將近40年的經驗累積及不斷研發創新，超過4000台的客戶口碑認證，利拿公司儼然已成為全球最專業的利拿式密練機之大廠。公司名稱「利拿」因而也成為市場上該型混合機之代名詞。目前兩岸生產基地總面積超過20000坪，能符合逐漸擴大的市場，並配合政府政策在屋頂配置了太陽能綠電為節能減碳盡一份心力。

在台灣設立了總公司以統合蒸蒸日上的業務量，且陸續投資與階段性增建新廠，除了台灣與大陸增加新廠房，另在美國與越南設有據點，創造利拿公司與客戶間最大的利基。公司亦啟動了另一個40年永續經營的計畫，階段性注入新血與人才培育，使得公司企業文化有所傳承，專業技術能與時代接軌，客戶擁有了永久性的配合供應商。

Kneader Machinery Co., Ltd. (KMC) was established in 1981 and is the first manufacturer of Dispersion Kneader in Taiwan. Accumulated with closed to 40 years experience, incessant research and development and validated with the appraisals of more than 4,000 sets, KMC is almost one of the largest builder of Dispersion Kneader, and KMC is becoming the nickname of kneader in the market. Presently, the total area of production bases across Taiwan Strait is more than 66116m² and is sufficient for meeting expanding market now. In addition, following the green energy policy of the Government, we built solar energy installation to our factory building to fulfill our obligation as corporate citizen.

KMC has headquarters located in Tainan, Taiwan to consolidate and control worldwide business. In addition to increase new factory facilities in Taiwan and in China, we also set up our business points in USA and Vietnam to offer the best and fastest services to customers. KMC has also commenced sustainable operation plan for the next 40 years. We have started to inject new team of talents, so that the heritage of the company may be passed down and the professional skills may be carried on and improved all the time that our customer will have lasting cooperating supplier with excellent services.

4 Major Believes

四大信念

品質第一
Quality First

服務至上
Utmost Service

技術卓越
Excellent Techniques

永續經營
Sustainable Operation

橡膠片生產線 Film Production Line

塑膠粒生產線 Plastic Pellet Production Line

Turn Key Project 整廠設備

為提供客戶更完整的產品線與服務，利拿公司朝著整合性的流程設計發展，配合客戶需求，規劃整廠設備建議。並且於台灣總公司及美國利拿公司(成立於1997)成立實驗室，依據實驗所得數據，客戶的回饋與近40年累積之經驗，配合先進的電腦輔助程式，開發符合客戶需求的機台及流程，協助客戶尋找最佳解決方案，其中尤其以KD式膠粒製造設備及KD式出片/出條設備最具代表性。

公司除了品保系統符合ISO9001最新版本的精神與要求，持續不斷在矯正與預防、風險評估與經營計畫更有自我長久的目標，設備產品的安全性更能達到CE的規範。無論在塑膠或橡膠原料都能提供良善的設備，以滿足現階段高度客製化的市場需求，從原材料填充→輸送(粉狀、顆粒、塊狀與液體)→微量或大量自動計量→實驗室開發或大量生產密練混合→粉塵過濾→開練出片或膠粒生產→切片或切粒→氣冷或空調冷卻與水冷脫水→到橡塑膠原料完成，建置了整條自動化生產線，朝著工業4.0邁進。

In order to provide customers with complete product line and services, KMC is working to integrated flow design and is offering turnkey proposal basis unique needs of individual customer. WE have also set up laboratories in Taiwan headquarters as well as KMC USA (set up in 1997). The data from laboratories, feedback of customers and 40 years experience, aided with computer aided program, we developed tailor made machine and production flow for customers and offer them with individual specific solution. Among those, KD pelletizing equipment, KD sheet making / strip extruding equipment are most welcome.

In addition to meet the QA System latest version of ISO9001 in spirit and in physical requirements, the Company continues in correction and prevention as well as risk assessment and is pursuing own long time target, and the safety of equipment and products are all meeting CE standard. The Company is capable in providing excellent equipment for rubber and plastic materials, highly customized and fitting to market demand. The systems we have developed are integral one through system, from Raw Material Filling → Conveying (Powder, Granular, Block or liquid) → Automatic Metering of Small Volume or Large → Laboratory development or Mass Production Kneading Mixing → Powder Dust Filtering → Kneading to Sheet or Grain → Sheet Cutting or Pelletizing → Air Cool, Air Conditioned Cool and Water Cool Dehydration → Completed Rubber / or Plastic Raw Material Preparation. The Company is marching to Industry 4.0.
