Packing Bag Separate M/C > Packing M/C > Onion Bag

ABOUT US

Knitting Your Future !

Founding in 1978, WEI MENG Industrial Co., Ltd. (WMI in short) as a leading maker of Raschel knitting machine whole plant equipment is good at provision of customized services under meeting a great variety of demands of plastic knitting items in respective fields.

Over few decades, it is our profession and devotion to manufacture professional knitting machines and related devices for agriculture and fishery via rich experience and excellent design capabilities.

High quality is the philosophy from 1978. WMI insists on high quality from the very first day of the founding.

It is our principle to supply the best machinery with high mechanical maturity and stability to run with high operating standards of precision and rapidity.

The fine services available at each corner of the world are:

- Trial i.e. testing of machinery:

A professional technician assigned by WMI will arrive at the site in person liable for installation and testing and giving directives to operators in order to ensure the machine to run well.

- Spare i.e. supply of parts:

Ample spares of parts and accessories required by the knitting machinery are available meeting demands of clients fast and firm.

- Help i.e. technical solution:

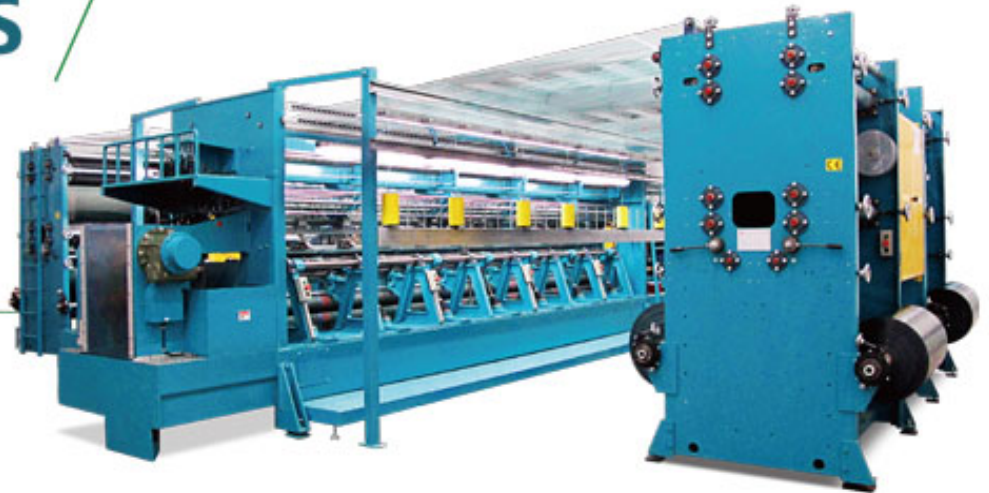

A holistic solution is available to the client for tackling technical issues of the machinery.
